

LIRA GOLD® **Electrolyte Paste**

A Convenient Paste Form of Electrolyte Supplementation for Bovine in an Easy-Dose Syringe. To be Used During Periods of Stress or Dehydration.

35 gm oral dose syringes

Dosage: Calves: ½ - 1 syringe
Mature Cows: 1-2 syringes

- ♦ **Electrolytes and Essential minerals – Calcium (Ca), Magnesium (Mg), Potassium (K), Salt (NaCl), Iron (Fe), Zinc (Zn), Manganese (Mn), Copper (Cu) and Cobalt (Co).**
-

All Natural Ingredients for Healthy Animals!

LIRA GOLD® Electrolyte Paste is designed to supplement electrolytes during periods of stress, including but not limited to dehydration. This product is a great tool to combat fluid loss due to nutritional or pathogenic scours or other compromising conditions.

During stressful conditions caused by shipping or illness, animals can dehydrate resulting in interrupted daily weight gain, efficiency and performance. LIRA GOLD® Electrolyte Paste aids in preventing excessive fluid loss due to dehydration.

In addition to the major electrolytes, Calcium (Ca), Magnesium (Mg), Potassium (K), and Salt (NaCl), we have included a combination of Iron (Fe), Zinc (Zn), Manganese (Mn), Copper (Cu) and Cobalt (Co) to replenish essential minerals that are often depleted during episodes of dehydration.

Our electrolyte paste is convenient, economical, and a beneficial addition to any management program.

Special Notes:

Do not administer to animals that are unable to swallow!

LIRA GOLD® *Electrolyte Paste*

A Convenient Paste Form of Essential Mineral Supplementation for Bovine

Guaranteed Analysis (per 35 g Syringe)

Crude Protein, min.....	2.00% (700 mg)	Potassium (K), min....	9.25% (3,237 mg)
Glycine, min.....	2.00% (700 mg)	Copper (Cu), min.....	50 ppm (1.75 mg)
Calcium (Ca), min.....	5.50% (1,925 mg)	Zinc (Zn), min.....	100 ppm (3.5 mg)
Calcium (Ca), max.....	6.00% (2,100 mg)	Iron (Fe), min.....	705 ppm (24 mg)
Salt (NaCl), min.....	17.50% (6,125 mg)	Manganese (Mn), min.	66 ppm (2.3 mg)
Salt (NaCl), max.....	18.50% (6,475 mg)	Cobalt (Co), min.....	0.5 ppm (0.017 mg)
Magnesium (Mg), min..	1.80% (630 mg)		

Ingredients: Salt, Potassium Chloride, Water, Calcium Carbonate, Magnesium Chloride, Dextrose, Glycine, Propylene Glycol, Natural & Artificial Flavor, Xanthan Gum, Iron Proteinate, Hydroxylated Soy Lecithin, Sorbic Acid (preservative), Corn Syrup Solids, Zinc Proteinate, Manganese Proteinate, Copper Proteinate, Cobalt Proteinate.

Indications and Directions for Use: For oral use only - contains no medication. This nutritional supplement is suitable for bovine applications during periods of stress or when supplementary essential minerals are indicated. Dispense orally on the back of animal's tongue at the following rates: Scouring calves, one-half to one full syringe (17-35 grams); mature cows, one full syringe (35 grams). Repeat as needed. Always provide access to clean, fresh water. For more specific instructions pertaining to the use of this electrolyte supplement or suitability for other species, please consult your LIRA GOLD sales representative.

Do not administer to animals unable to swallow.

For animal use only. Store in a cool, dry place out of reach of children
