

LIRA GOLD® LAGOON BIODEGRADE

An economical concentration that combines with naturally occurring microorganisms in nature to quickly, efficiently, and safely reduce manure solids.

25 lb. pails

Dosage: 4 ounces per 25 cows per month

- ◆ **Dried Yucca Schidigera Powder**
- ◆ **Yeast** – Active dry cell yeast from: **Saccharomyces cerevisiae**
- ◆ **Dried Fermentation Products of –**
Bacillus subtilis, Bacillus licheniformis, Psuedomonas putida, Pselidomonas fluorescenes, Esherichia hermannii, Enterobacter cloacae, Bacillus thuringiensis, Bacillus pasteurum and Bacillus amyloliquifaciens
- ◆ **Dried Fermentation Extract Products of –**
Aspergillus oryzae and Aspergillus niger

Specific Benefits:

- Easy to apply.
- Environmentally friendly.
- Non-acidic, Non-corrosive.
- Organic catalysts speed reactions necessary for liquefying solids.

LIRA GOLD® Lagoon Biodegrade is most effective from 60°-100° F

LIRA GOLD® LAGOON BIODEGRADE

Now you can give mother nature a hand with waste disposal problems, by speeding up the biodegrading process with the addition of LIRA GOLD® LAGOON BIODEGRADE. An economical concentration that combines with naturally occurring microorganisms in nature to quickly, efficiently, and safely reduce solids to simpler forms.

Physical Characteristics: Light-tan, free flowing powder with a yeasty but pleasant odor; non-toxic, non-corrosive, and non-caustic.

Usage: For pits, lagoons, and holding tanks use at the rate of 4 oz. per 25 cows for 1 lb. per 100 cows monthly. Apply at the drain in flush systems or by mixing one pound of dry material in five gallons of water and sandy or pour into lagoon.

(1 scoop= approximately 4 oz.)

Ingredients: Dried Yucca schidigera Powder; Active Dry Yeast; Potassium Metavanadate; Maltodextrin; Corn Syrup Solids; Dried Fermentation Products of: Bacillus subtilis, Bacillus licheniformis, Pseudomonas putida, Pseudomonas fluorescens, Escherichia hermannii, Enterobacter cloacae, Bacillus thuringiensis, Bacillus pasteurum, Bacillus amyloliquifaciens; Dried Aspergillus oryzae Fermentation Extract Product, and Dried Aspergillus niger Fermentation Extract Product.

Store in a cool dry place out of reach of children.

Keep tightly closed when not in use.

Manufactured for:

Net Weight: 25 lb (11.34 kg)

Lot No:

A division of Daniel Baum Company, Inc.
1383 Arcadia Rd, Ste 102, Lancaster, PA 17601

LIRA GOLD® LAGOON BIODEGRADE

Now you can give mother nature a hand with waste disposal problems by speeding up the biodegrading process with the addition of **LIRA GOLD® LAGOON BIODEGRADE**. An economical concentration that combines with naturally occurring microorganisms in nature to quickly, efficiently, and safely reduce solids to simpler forms.

Physical Characteristics: Light-brown, free flowing powder with a yeasty but pleasant odor; non-toxic, non-corrosive, and non-caustic.

Usage: For pits, lagoons, and holding tanks use at the rate of 4 oz. per 25 cows for 1 lb. per 100 cows monthly. Apply at the drain in flush systems or by mixing one pound of dry material in five gallons of water and spray or pour into lagoon.

(1 scoop= approximately 4 oz.)

Ingredients: Dried Yucca schidigera Powder; Active Dry Yeast; Potassium Aluminosilicate; Maltodextrin; Com Syrup Solids; Dried Fermentation Products of: Bacillus subtilis, Bacillus licheniformis, Pseudomonas putida, Pseudomonas fluorescens, Escherichia hemannii, Enterobacter cloacae, Bacillus thuringiensis, Bacillus pasteurii, Bacillus amyloliquefaciens; Dried Aspergillus oryzae Fermentation Extract Product; and Dried Aspergillus niger Fermentation Extract Product.

Store in a cool dry place out of reach of children.

Keep tightly closed when not in use.
