

LIRA GOLD® *CMPK Gel Plus*

Oral Bovine Gel for the Supplementation of Freshening Cows. Contains a Source of Minerals and Direct-fed Microbials Critical to Maintaining Nutritional Balance Before, During and After Calving

400 gm. tubes (oral dose)

Dosage: Administer entire contents of tube orally on the back of the tongue. Dispense slowly, allowing the cow time to swallow.

- ♦ **Bacteria** – Host specific, digestive lactic acid-producing bacteria (5):
Lactobacillus acidophilus, Enterococcus faecium, Bifidobacterium thermophilum, Bifidobacterium longum, Bacillus subtilis
 - ♦ **Essential minerals** – Calcium (Ca), Magnesium (Mg), Phosphorus (P), and Potassium (K)
 - ♦ **DCAD** – Dietary Cation-Anion Difference – Calcium chloride as an acidifying anionic source that can reduce the effects of milk fever.
-

LIRA GOLD® CMPK Gel Plus provides a source of calcium (calcium chloride) critical to maintaining energy balance and calcium levels in fresh cows.

Lira Animal Health Products introduces a new management tool to aid fresh cows in their battle to build levels of calcium (Ca), magnesium (Mg), phosphorus (P), potassium (K), and lactic acid-producing bacteria. Each tube of **LIRA GOLD CMPK Gel Plus** has 400 grams of active ingredients; ideal for preventive applications and to follow calving as a supplement.

As with any oral supplement designed to correct or alleviate effects of a metabolic disorder, Lira Animal Health Products suggest you consult with your veterinarian and follow his/her advice regarding multiple dosing of cows; usually one tube of **LIRA GOLD CMPK Gel Plus** is sufficient.

Please see reverse side for complete product label

LIRA GOLD® CMPK Gel Plus

An Oral Nutritional Supplement For Freshening Cows. Contains calcium, magnesium, phosphorous, potassium and probiotics. Helps Maintain Nutritional Balance Before During And After Calving.

Guaranteed Analysis per 400 gram tube:

Calcium (Ca), min.....	56 g	14.00%
Calcium (Ca), max.....	64 g	16.00%
Phosphorus (P), min.....	12 g	3.00%
Magnesium (Mg), min.....	1.4 g	0.35%
